

STONED LAB RATS

QUICK START

Welcome to the Lab

SLR is a shared strain notebook with personal ratings. Everyone sees the same lab, but your invite code keeps your experiences attached to your own score.

1. GET IN

Open labrats.saltyviewfinder.com in Safari.
Enter the invite code made for you.
On iPhone: Share > Add to Home Screen.

2. FIND A STRAIN

Search by name or use Sativa, Hybrid and Indica filters. Tap Filters for brand and sort. Tap any card to open the specimen details.

3. KNOW WHO IS RATING

Rating as [name] shows whose code is active. My score uses only your sessions. Community balances each member equally.

STONED LAB RATS

SPECIMEN DETAILS

Read a Strain

Stoned Lab Rats

Strain: Ajo Blanco

Brand: Humbolt Farms

SPECIMEN

STRAIN

Ajo Blanco

Humbolt Farms

TYPE

Sativa

THC

31.7%

TERPENES

Caryophyllene

Myrcene

Limonene

Linalool

RATING

Smoked 1x but no Overall rating logged yet.
Effects still appear below.

EFFECTS

 Focused

 Creative

 Relaxed

Longer bar = more consistently or strongly reported.

 **BLAZE +**

WHAT YOU SEE

Brand, type, THC and known terpenes.
The Rating section is the average Overall Rating. Effects appear separately below.

LAB RESULTS

Longer bars mean an effect was reported more consistently or more strongly. Green bars are Effects. Red bars are Side Effects.

PERSONAL VS COMMUNITY

My score answers: How did I like it?
Community answers: How did the group rate it, with each member weighted equally?

OVERALL - OPTIONAL

1 Poor | 2 Below Average
3 Solid | 4 Very Good | 5 Excellent
This is the quality score.

EFFECT INTENSITY

- = not noticed
One dot = noticeable
Two dots = strong

HOW TO LOG

1. Open a strain and tap Blaze +.
2. Pick the batch if asked.
3. Tap Overall if you want.
4. Tap effects once or twice.
5. Tap Log Session.

Log it while it is fresh.

Effects and Side Effects

Effects are not automatically good or bad. Side Effects are generally unwanted reactions. Use one dot for noticeable and two dots for strong.

EFFECTS

Euphoric

Lifted mood or feeling great

Creative

Ideas or creative flow

Giggly

Laughing more than usual

Relaxed

Calm without being planted

Sleepy

Ready for sleep

Focused

Locked into what you were doing

Social

More open or talkative

Energized

Energy or urge to move

Couch-Locked

Physically melted in place

Hungry

Appetite or munchies

SIDE EFFECTS

Anxious

Uneasy or overstimulated

Washed

Foggy, cooked, depleted or useless

Dizzy

Spinning or unsteady

Paranoid

Suspicious or uncomfortable

KO'd

Unexpectedly put out

Headache

Head pain or pressure

Important: Sleepy is an Effect. KO'd is an unexpected knockout and a Side Effect.

Add, Refresh and Get Help

ADD A NEW STRAIN

Tap +. Enter strain name, brand, type and THC. Know the terps? opens an optional terpene picker. Check spelling before adding.

REFRESH

Refresh pulls the latest shared Notion data. Use it after someone adds a strain or logs a session that you want to see immediately.

THE MENU

Tap the menu icon in the top-right for your My Lab profile, How Ratings Work, both guides, Switch person and version information.

INVITE CODES

Each person gets their own code. Do not pass yours around. Ask Cyrus for a new friend code.

The screenshot shows the Stoned Lab Rats app interface. At the top, there's a header with the app name and a user profile icon. Below the header, there's a section for 'Rating as Cyrus' with a 'switch' button and a 'My score' button. A search bar labeled 'Search strains...' is visible. A modal titled 'How Ratings Work' is open, showing five sections: Overall, Effects, Focused, Side Effects, and Lab Results. The 'Overall' section explains the rating scale from 1 (Poor) to 5 (Excellent). The 'Effects' section lists various effects like Focused, Energized, Relaxed, Couch-Locked, and Sleepy. The 'Side Effects' section lists reactions like Washed, KO'd, and Sleepy. The 'Lab Results' section explains the bar chart for effects and side effects. At the bottom of the modal, it says 'SLR v1.0 - Saltyview Productions'.

How Ratings Work

Overall

How much you liked the experience. Optional, from 1 Poor to 5 Excellent. This—not the effects—creates your quality rating.

Effects

What the weed actually did. Effects aren't automatically good or bad. One dot = noticeable. Two dots = strong.

Focused = locked into what you were doing. **Energized** = energy or urge to move. **Relaxed** = calm without being planted. **Couch-Locked** = physically melted in place. **Sleepy** = ready for sleep.

Side Effects

Generally undesirable reactions, using the same two-dot intensity. **Washed** = foggy, cooked, depleted or basically useless. **KO'd** = unexpectedly put you out. Sleepy is not KO'd.

Lab Results

Longer bars mean an Effect or Side Effect was reported more consistently or more strongly. Green = Effects. Red = Side Effects.
